- 25X1 1. In the middle of April, the Yugoslav section at the directorate of the machine industry was transferred from its office to the Foreign Office in connection with the negotiations by Czechoslovakia to equip three special plants for the Yugoslav Army. Considerable secrecy is attached to the negotiations which are outside the framework of the trade agreement which was recently concluded. All copies on the proceedings are being kept in the Foreign Office and by the Yugoslav representatives. The nature of the three plants is not specified but they are to be equipped with 95 specially constructed machines according to Russian specification. Zbrojovka Brno is to set up drafts for the machines to be manufactured by Zbrojovka and Skoda.
2. The security required by the Yugoslavs puzzles the Czechoslovak engineers who feel it impossible to keep fulfillment of such an order a secret.
